

IOSH Managing Safely training is considered the number one health and safety course for employees in any sector, worldwide.

BCarms' in-house trainers can provide you with a greater understanding of safety issues relevant to your business's specific needs. As well as helping you to improve employee productivity and identify potential hazards in the workplace, it enables you to develop risk assessments that will make a difference to the overall safety culture across your organisation.

What are the benefits of BCarm IOSH Open Course training?

- Expert health and safety training relevant to your business
- Virtual training - take the course from wherever you are
- Efficient and effective learning where health and safety basics are covered in a single programme
- Round table discussions can allow you to learn from your peers and gain best practice
- Globally-recognised respected certification on completion

Who is Managing Safely for?

This unique course is for any employee, in any sector and any organisation. Designed and quality-assured by the Chartered Body for Safety and Health Professionals, the course will get your staff up to speed on practical actions and give them the confidence to manage health and safety within their teams.

How is open course training delivered?

The high impact content is broken down into easy to follow modules using memorable thought-provoking case studies and facts, clear examples and recognisable scenarios. We use fun quizzes and group discussions to make the training enjoyable and interactive, and useful summaries to reinforce key points.

3 -day virtual course

£425 pp (ex VAT)

Small group - Max 10

How to book your training?

Simply [fill in this form](#) to get the ball rolling. We will be in touch to discuss your requirements and book you on the course dates you'd like to attend next.
